

NexLearn – Gamified Learning Platform

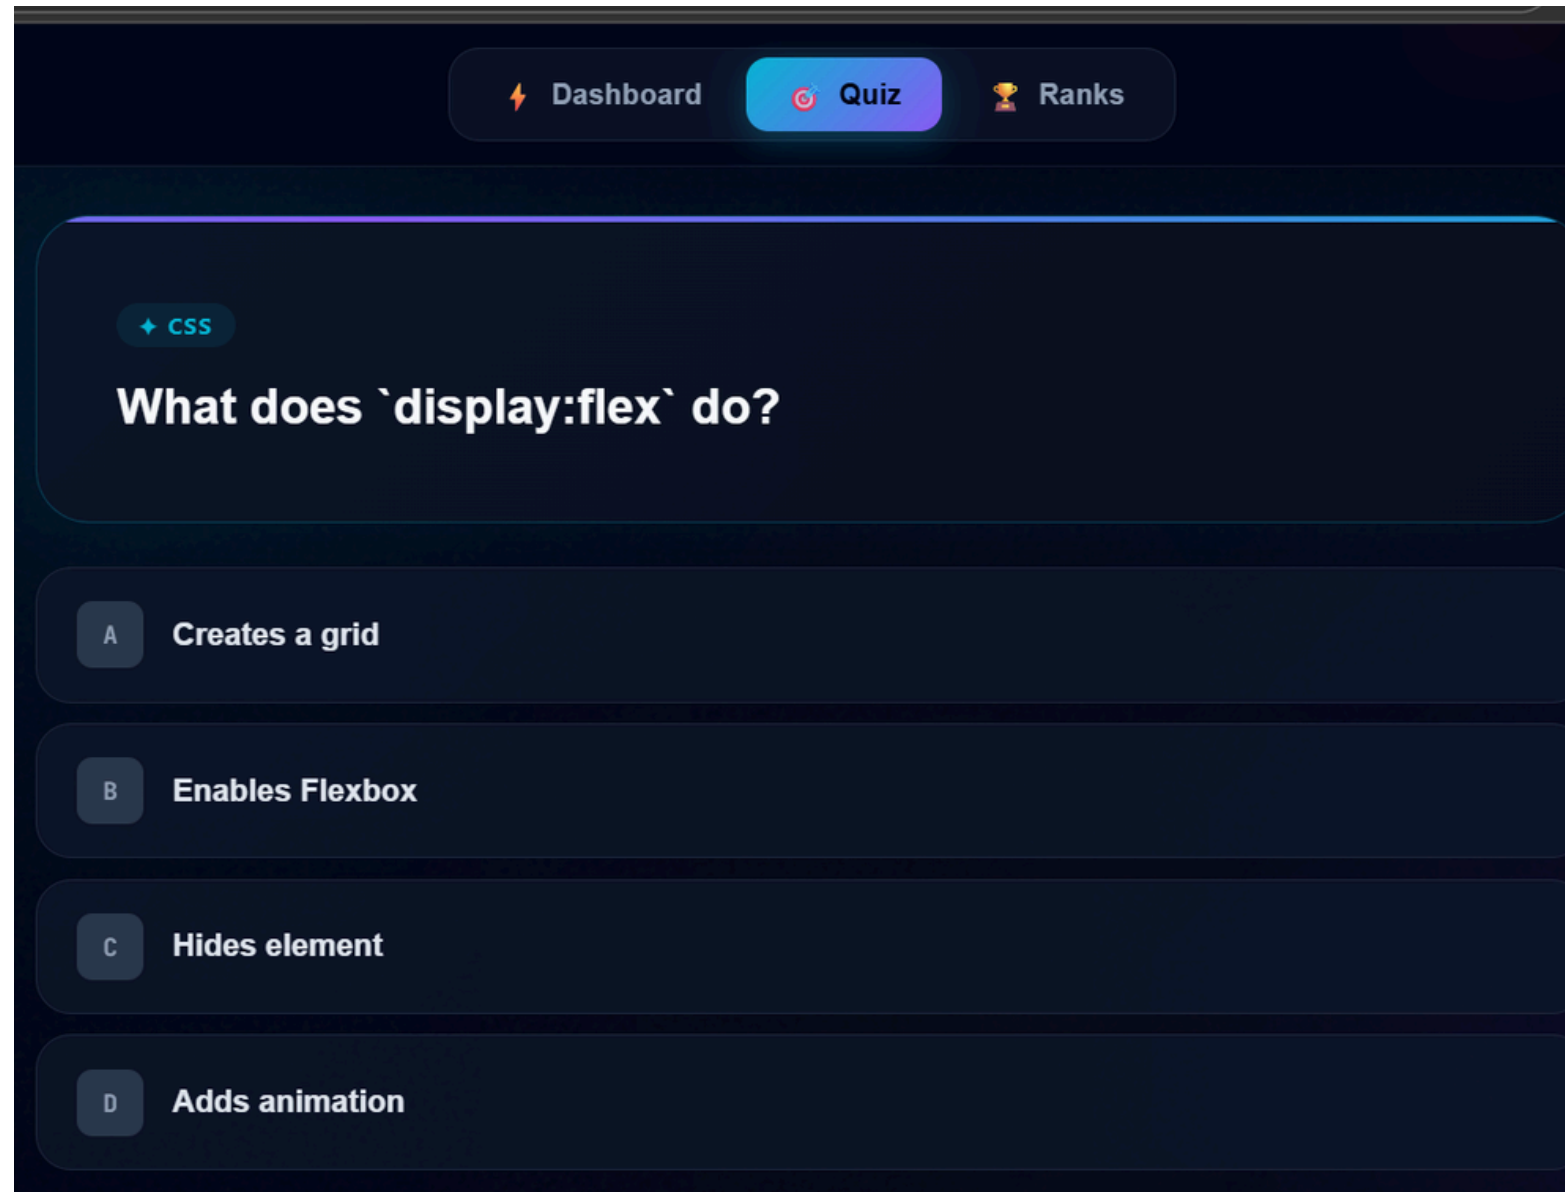

Making Learning Fun &

Presented by: Team Syntax Squad

PROBLEM STATEMENT

- Traditional learning is boring
- Students lose interest quickly
- No motivation or rewards
- Lack of interactive learning

PROPOSED SOLUTION

NexLearn =Gamifiedlearningplatform

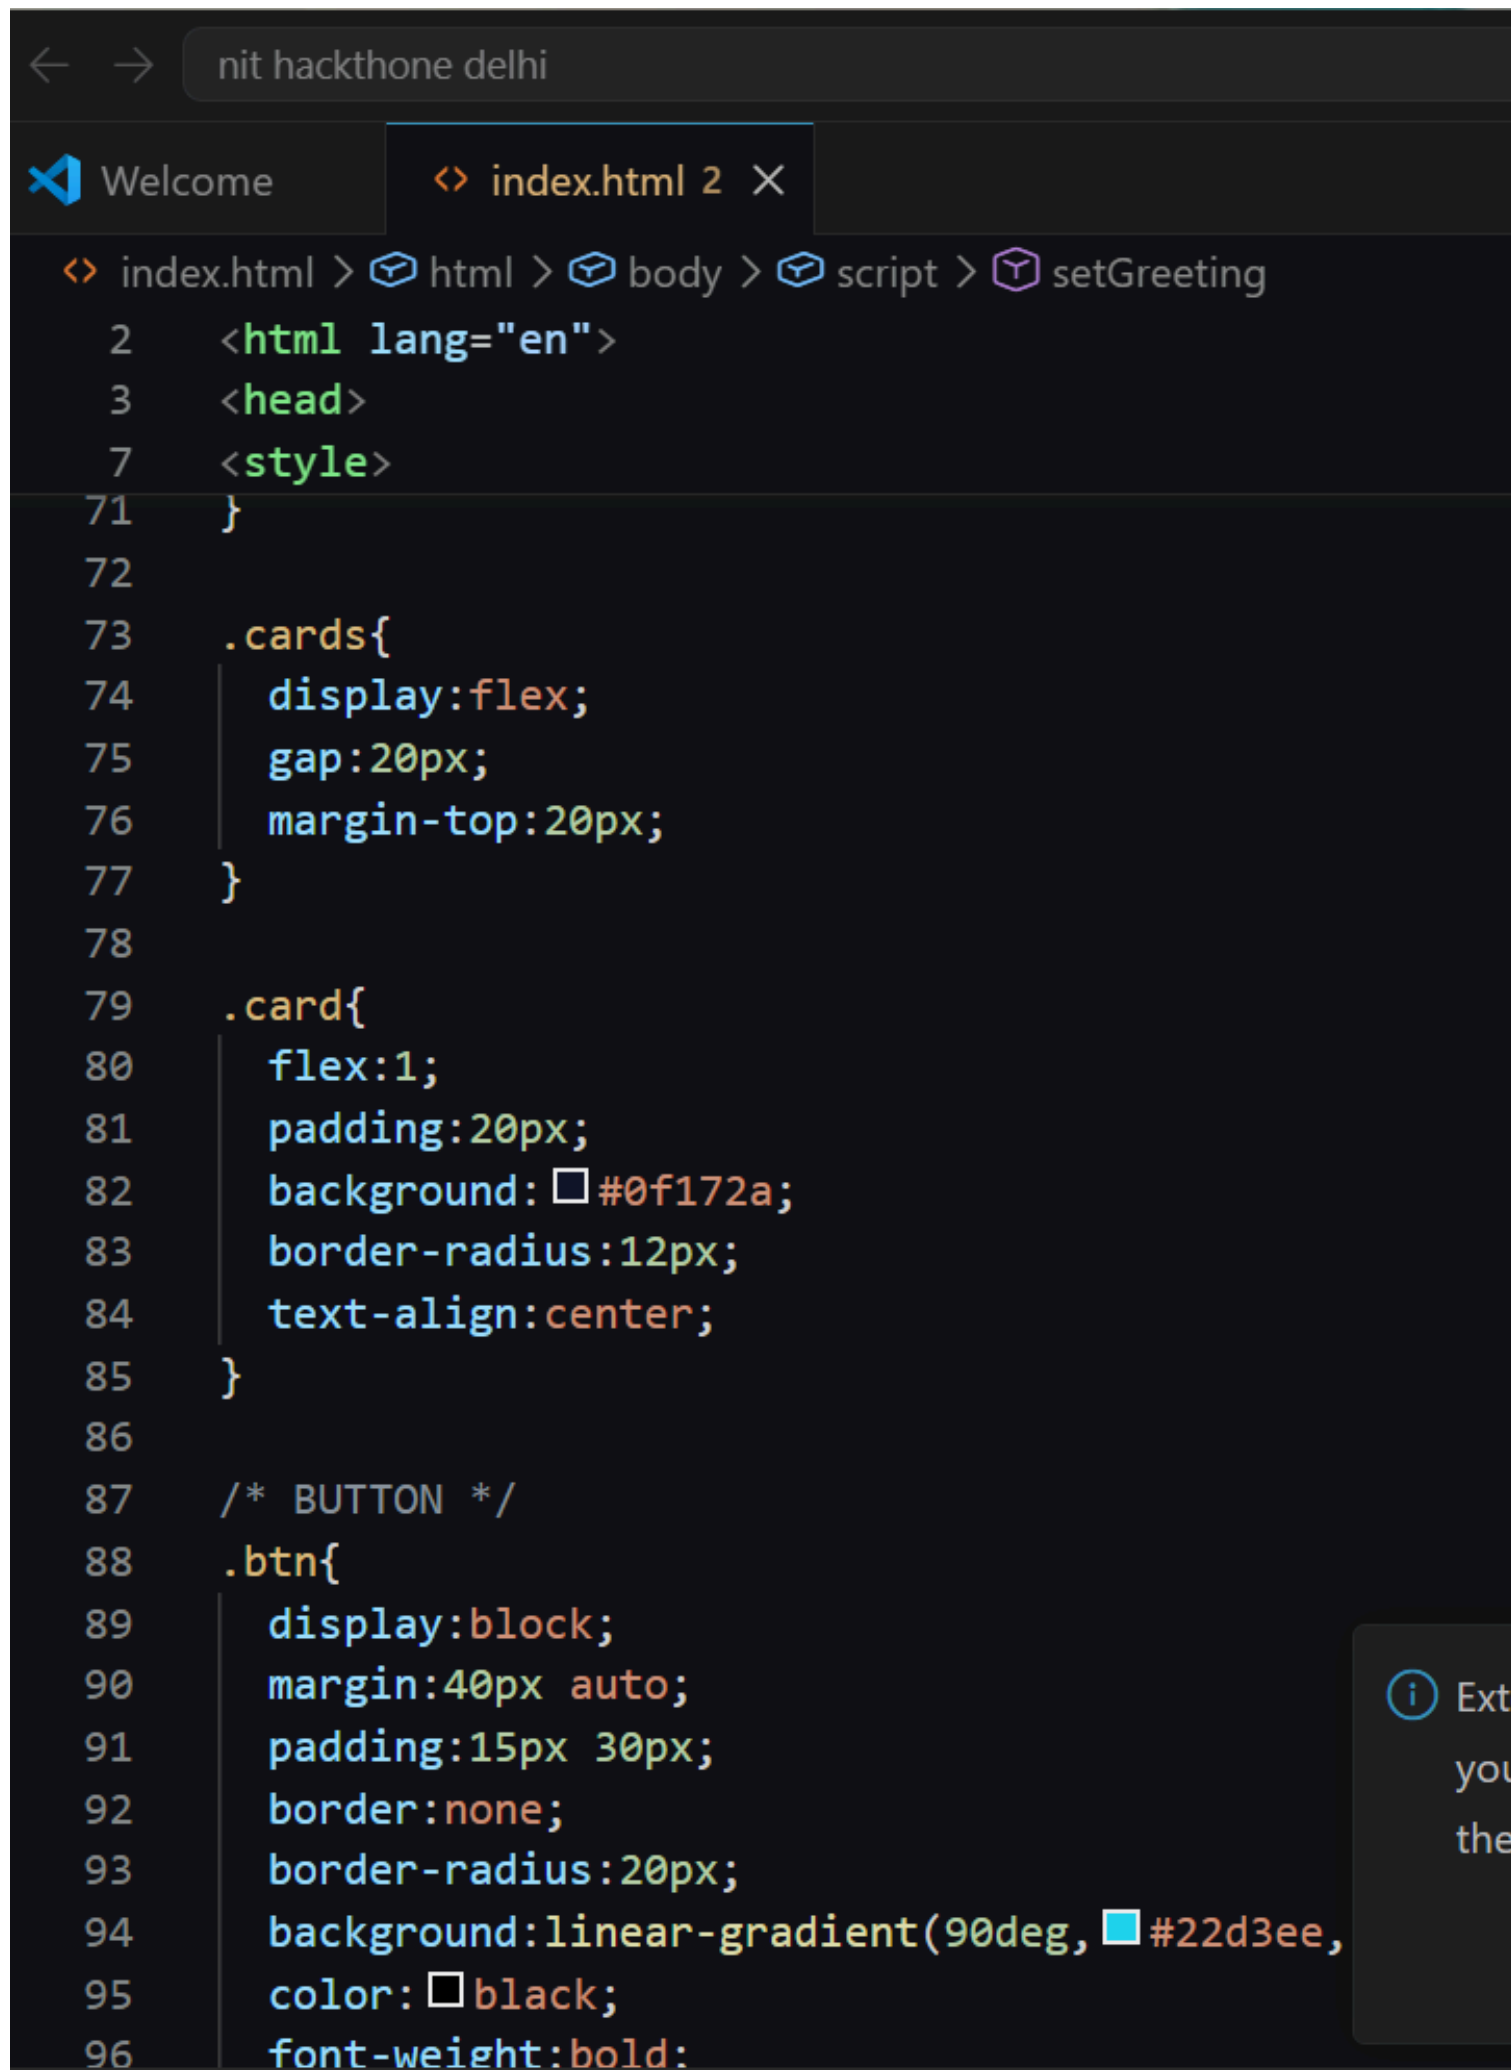

Learning through quizzes

Instant feedback system

Rewards using XP & streaks

The image shows a web browser window with the address bar displaying "nit hackthone delhi". The browser shows a dark-themed website with a navigation bar containing "Welcome" and "index.html 2". The main content area displays a list of items, each with a title and a description. The code editor shows the HTML and CSS code for the website. The HTML code includes a <html> tag with lang="en", a <head> tag, a <style> tag, and a <script> tag. The CSS code defines styles for .cards, .card, and .btn. The .cards class is a flex container with a gap of 20px and a margin-top of 20px. The .card class has a flex of 1, padding of 20px, a background color of #0f172a, a border-radius of 12px, and text-align of center. The .btn class has a display of block, margin of 40px auto, padding of 15px 30px, border of none, border-radius of 20px, a background linear gradient from #22d3ee to black, color of black, and font-weight of bold.

```
<html lang="en">
<head>
<style>
71 }
72
73 .cards{
74   display: flex;
75   gap: 20px;
76   margin-top: 20px;
77 }
78
79 .card{
80   flex: 1;
81   padding: 20px;
82   background: #0f172a;
83   border-radius: 12px;
84   text-align: center;
85 }
86
87 /* BUTTON */
88 .btn{
89   display: block;
90   margin: 40px auto;
91   padding: 15px 30px;
92   border: none;
93   border-radius: 20px;
94   background: linear-gradient(90deg, #22d3ee, black);
95   color: black;
96   font-weight: bold;
```
